

FANTASTIC NEWS FOR PHYSICAL HEALTH AT CROSSWAYS JUNIOR

PHYSICAL HEALTH
AT CROSSWAYS
JUNIORS WAS

15%

HIGHER THAN THE
NATIONAL AVERAGE
DURING 2018/19

In 2018/19 we worked closely with Future Stars Coaching to access the Gymrun Project. The project saw our KS2 children take part in a physical health assessment at the start of the year and the end of the year.

Thanks to the assessment data gathered by the Gymrun Project, we were able tailor our approach to PE in order to serve the children in the best possible way.

The Sports Premium Funding and the new Ofsted Framework allowed us to create a PE curriculum that linked all aspects of PE, health and well-being.

We ran tailored PE lessons, CPD sessions for teachers, competition support for our sports teams and a host of other initiatives.

The results have been overwhelming and we are looking forward to developing PE even further in 2019/20.

If you would like to know more, access one of our clubs or talk to one of the PE Department, please contact us.
