

Answers to Year 4 Week 4 Thursday

Question ①: Rectangle A = 20 squares
Rectangle B = 18 squares
Rectangle C = 18 squares

Question ②: The area of Shape A is 30 squares.
The area of Shape B is 30 squares.

Question ③: The area of this shape is 38 squares.
Children's methodology will vary, but they should be able to confidently explain how they found the answer. For example, add all squares then take away the 4 squares that are cut out.
